The Blender Model (under construction)

- We are actively seeking investors and crowd funding to finance the hiring of a few top-level engineers to help develop the initial prototype.
- By aggressively capitalizing on Open-Source collaborative design and rapid iterative prototyping, see your family flying freely and safely to any destination in the world, at near zero cost.
- By expanding the territory of individuals and families we can break down traditional economic and political barriers, ushering in an era of unprecedented peace.
- By eliminating transportation costs, we can radically lower the price of property, goods, and services globally, while simultaneously switching the global economy to blockchain based privacy and freedom, eliminating fiat currencies, global reliance on petroleum products, and all existing forms of government and taxation.
- Our goal at OpenAirShips.com is to rapidly decentralize all human infrastructure, eliminating censorship,

We require the following systems, and management teams for those systems:

- [GitHub](#)
- Blockchain and Atomic Swaps
- IRC
- Social Media: Twitter, YouTube, FaceBook, Gab.ai, etc.
- Public Relations

We are also on the lookout for the following Specialists:

- Aeronautical Engineers
- Radio Hardware Engineers
- Materials Scientists
- Electrical Engineers
- Blockchain Coders ([CoinKitty.org](#))
- Video Production and Editing
- Open Source and Linux Programmers ([SuperMox.me](#))
- International Law and Airspace Consultants
- Encryption Experts
- 3d Printing Experts

fascism, and poverty. We believe the fastest, cheapest way to do so is Self-Printing, Autonomous AirShips and uncensorable peer-to-peer mesh network infrastructure.
